

RECORD OF DIPTERA
taken on June 8 and July 28, 1903.
By G. C. HUGHES.

[These are additions to the list published in the Report for 1902. About 80 species were taken on these two expeditions altogether, of which 20 are not yet identified. (Ab.) signifies Abingdon; (C. to S.) stands for Compton to Streatley.]

1. *Amalopsis immaculata*. Mg. (Ab.)
2. *Tipula rufina*. Mg. (Ab.)
3. " *ochracea*. Mg. (Ab.)
4. *Pachygaster atra*. Fz. (Ab.)
5. *Oxyera pygmaea*. Flin. (Ab.)
6. *Leptis lineola*. F. (Ab.)
7. *Thereva bipunctata*. Mg. (Ab.)
8. *Poecilobothrus nobilitatus*. L. (Ab.)
9. *Platychirus albimanus*. F. (Ab.)
10. " *clypeatus*. Mg. (Ab.)
11. *Catabomba pyrastri*. L. (Ab.)
12. *Syrphus vitripennis*. Mg. (Ab.)
13. " *corollae*. F. (Ab.)
14. " *cinctus*. Flin. (C. to S.)
15. *Ascia podagrica*. F. (Ab.)
16. *Helophilus pendulus*. L. (Ab.)
17. *Gymnochaeta viridis*. Flin. (C. to S.)
18. *Sarcophaga haemorrhoidalis*. Mg. (C. to S.)
19. *Stomoxys calcitrans*. L. (C. to S.)
20. *Pollenia rudis*. F. (Ab.)
21. *Pyrellia cadaverina*. L. (C. to S.)
22. *Calliphora vomitoria*. L. (C. to S.)
23. *Euphoria comicina*. F. (C. to S.)
24. *Folietes lardaria*. F. (C. to S.)
25. " *albulinosa*. Flin. (Ab.)
26. *Spilogaster quadrimaculata*. Flin. (Ab.)
27. *Hylemyia seticrura*. Rad. (Ab.)
28. " *nigrescens*. Rad. (C. to S.)
29. " *pullula*. Ztt. (Ab.)
30. *Anthomyia pluvialis*. L. (Ab.)
31. *Pterobia ignota*. Rad. (C. to S.)
32. *Pegomyia versicolor*. Mg. (Ab.)
33. *Dryomyza flavicla*. F. (C. to S.)
34. *Scoptera vibrans*. L. (Ab.)
35. *Micromyza pratensis*. Mg. (C. to S.)
36. *Centor cerealis*. Flin. (Ab.)
